SELECTED

Our Customers are the focus of everything we do.

Our top priority is to create value for our customers; to respond promptly to their necessity with quality. It is our mission to take responsibility for our products for the long term.

EXCLUSIVE

To be “the best” is our eventual aim.

To be the best in quality, service, supplier, and dealer relationships; to offer the best service opportunity for our customers; and to sustain this reputation are our primary aim. To achieve these aims we are committed to managing our businesses to be the leader in the market.

GENIUS

“Make it possible”

With each product line introduced to market an innovate on various groups. Whether it's a new product design, a rare/unique or a new level of quality in printing on various materials we always push ourselves to do better products.

We think that only innovation and high quality of manufactured goods can result in a long lasting relationship with our clients who trust our approach to constant product portfolio development.

ADVANCED PRODUCTS

“Knowledge is power”

SEGA is the biggest and strongest brand in its industries. It has become synonymous with lubricants & additives , car care products, and adhesives & sealants to millions all over the world and ranked amongst the most-trusted brand in the countries. Also SEGA has successful and given special services into some of products' trading. With innovation and improvement activities, SEGA has entered new products into its sectors.

AIR FRESHENERS

Radiator Coolant

Sega Radiator Coolant (standard)

Ready Use Formula

Engineered to keep your operating temperatures at optimum performance to not lose power through excess heat. It is safe for aluminum and most all metals. Uses propylene glycol, which has been proven to eliminate water pump gasket and seal failures. It has also shown in high load, high stress conditions to reduce operating temperatures more than standard coolants.

Concentrated Antifreeze

SEGA Xplus Antifreeze helps extend the life of higher mileage vehicles by keeping your vehicle's engine temperature stable in all climates and driving conditions by transferring heat from the engine to the radiator. The largest antifreeze brands claiming 'all makes, all models' use a corrosion inhibitor package without silicate. These chemistries, when mixed together, may fail to protect the cooling system from rust and corrosion. Sega Xplus Antifreeze contain special formula to provide maximum protection.

- Recommended for use in all makes, all models and compatible with all colors
- Lubricates gaskets and seals
- Helps protect against cold weather freeze-ups and hot weather boil-overs

Diesel Treatment

Diesel Treatment is the complete Diesel additive to maintain best Performance in all conditions. Cleans Injectors, reduces soot emission and keeps EGR and DPF systems clean with Cerium Technology, Biocide kills algae and micro-organisms, flow improver prevents diesel waxing to well below freezing point. Added lubricity extends injector life and lubricates fuel pump. Assists with water separation by demulsifying the fuel and water for easy and complete removal through the water trap.

- Cleans the entire diesel fuel system.
- Improves combustion and cold starting.
- Reduces harmful exhaust gases.
- Reduces fuel consumption.
- Prevents corrosion and oxidation.
- Harmless to all after-treatment systems.

Injector Cleaner

Injector Cleaner is a fuel additive for petrol and diesel engines designed to neutralize the negative effects of water in fuel.

- Cleans the injectors of petrol and diesel engines.
- Neutralizes and absorbs condensation water in the fuel tank and fuel system for removal in the combustion process.
- Prevents rust and corrosion in the complete fuel system.
- Prevents seizing of injectors.
- Prevents icing in the carburetor and fuel filter.
- Does not harm catalytic converters.

Gasoline Treatment

Improves the quality of gas and helps keep fuel injectors and intake valves clean with regular use.

Sega Gasoline Treatment improves the quality of gas by adding powerful cleaning agents that help fight the accumulation of harmful carbon, gum and varnish deposits in the fuel system that can reduce Performance. Also engineered to remove water, which can lead to fuel line freeze.

Improves the quality of gasoline to help :

- Save gas by keeping fuel intake system clean.
- Prevent deposit build up.
- Prevent fuel line freeze.

Octane Booster

Sega Octane Booster raises the octane level of LRP or unleaded petrol.

- Increases the octane number by 2 to 5 points.
- Provides a very effective guard against valve seat recession by forming a protective layer on the valve seats, replicating the effect of lead.
- Reduces and prevents pinging of the engine.
- Avoids mechanical damage caused by pinging.
- Improves engine Performance and acceleration.
- Lowers fuel consumption.
- Can be used in leaded or unleaded petrol.
- Does not contain lead components.

Fuel System Cleaner

For petrol engines with carburettor or injection system

SEGA Fuel System Cleaner is developed to maintain the cleanliness of the fuel system and reduce the octane requirement increase.

- Maintains the cleanliness of the fuel system.
- Reduces the octane requirement increase.
- Prevents the formation of deposits in the carburetor and on injectors and valves.
- Lubricates the injectors, the inlet valves, fuel system and upper cylinder area.
- Protects against rust and corrosion.
- Facilitates cold starting.
- Reduces pre-ignition.
- Is suitable for leaded and unleaded petrol and does not contain components that harm catalytic converters.

0519-048675	354 ML	24 PCS

Smoke Stop

SEGA Stop Smoke is an oil soluble supplement designed to reduce exhaust smoke due to oil burning.

- Reduces exhaust smoke due to oil burning.
- Improves the viscosity properties of the oil at high oil temperatures.
- Seals the gaps between worn engine components.
- Improves compression and engine performance.
- Reduces engine noise.
- Ensures a strong protective oil film under high temperature conditions.

CODE	CONTENT	QTY.
0519-048673	354 ML	24 PCS

Motor Flush

SEGA Engine Flush is a highly detergent concentrate, designed to clean all oil lubricating systems prior to oil change.

- Cleans engines, hydraulic systems, gearboxes and differentials internally.
- Quickly and efficiently dissolves varnish, sludge and other contaminants from vital engine parts.
- Prevents contamination of fresh oil by residues left behind.
- Neutralizes acids.
- Frees sticking internal engine components by dissolving deposits.
- Provides extra protection during the treatment.
- Quietens noisy hydraulic valve lifters by removing deposits.
- Is compatible with all mineral, synthetic, single and multi grade oils and suitable for regular and low SAPS applications.

0519-048100	444 ML	24 PCS

Gold Oil Treatment

Fights friction to help protect against engine wear by providing a thicker cushion

Sega Oil Treatments creates a heavy-duty lubricant film on all frictioning and sliding metal surfaces. It reduces friction, guaranteeing the aggregates run more smoothly. That produces these benefits: Significant fuel and oil saving, scientifically proven wear reduction, high reliability, antifriction properties.

- Protects against valve burn-through
- Deposits on resurfaced piston rings are loosened
- Removes oil sludge and unblocks blocked oil channels
- Neutralizes aggressive combustion acids
- Supplements active substances in used engine oil
- Minimizes friction resistance
- Suitable for oil dilution with bio fuels
- Conforms to modern API standards for engine oils

Premium Oil Treatment

Sega Premium Oil Treatment fights friction to help protect against engine wear. This high-viscosity formula, complete with anti-wear agent, is specifically formulated to help fight metal-to-metal friction and helps reduce oil consumption. Lubricates moving engine parts by providing a thicker cushion between moving engine parts. Scientifically engineered for Conventional or Synthetic oils. This high viscosity formula can be used for all cars, light trucks and SUVs. The moving parts in your engine operate under very tight tolerances. As mileage increases, excessive wear and friction can occur. This metal-to-metal condition could hurt your engine's reliability and overall performance. Guard against excessive friction with Sega Premium Oil Treatment. Add this car care treatment product to the engine oil during every oil change as part of routine car maintenance.

- Contains zinc anti-wear agent that fights metal-to-metal friction.
- Reduces oil consumption.
- Lubricates moving engine parts by providing a thicker cushion between moving engine parts.
- Scientifically engineered for Conventional or Synthetic Oils.
- High viscosity formula is compatible with cars, light trucks and SUVs for versatile use.
- Add this Oil Treatment to the engine oil during every oil change as part of routine car maintenance.

Premium Brake Fluid DOT3

Sega Xplus Premium Brake Fluid DOT3, is a high quality blend of polyethylene glycol ethers and additives which meet or exceed the industry minimum dry boiling point of 401. It meets the Federal Motor Vehicle Safety Standard (FMVSS) No. 116 and SAE J1703 specifications. It is recommended for use in both disc and drum brake system and clutch system where this type of product is called out for. It is compatible with all brake system rubber components and other brake fluids. It prevents seal hardening or softening.

- High quality blend of polyethylene glycol ethers and additives.
- Compatible with all brake system rubber components and other brake fluids.
- Prevents seal hardening or softening.
- Protects against rust and corrosion.
- Provides excellent lubricity.

Premium Brake Fluid DOT4

SEGA Xplus Brake Fluid DOT4 have a higher boiling point that meet, offering superior resistance to the Vapor Lock and ensuring braking efficiency even at low temperatures. With high anti-corrosion properties that resist oxidation, It also allows for long-term unaltered chemical/physical characteristics of the fluid in the brake system; therefore, preserving its integrity of the system over time. It meets and exceeds DOT standard for class 4, always guaranteeing safe braking.

- Maintains proper movement for safe, effective stopping performance.
- Helps deliver a quieter braking system.
- Produces smoother pedal travel.
- Provides longer brake life and performance.

Brake Fluids DOT 3

Sega Xplus Brake Fluid is designed to provide an extra margin of boiling point protection. The mix of polyglycol ethers ensures hot brake-system operation will not create dangerous vapor. This delivers braking power when needed by avoiding a spongy pedal. Both wet and dry boiling points exceed the minimum government standards. A comprehensive inhibitor package protects vital brake system metals.

- High quality blend of polyethylene glycol ethers and additives.
- Compatible with all brake system rubber components and other brake fluids.
- Prevents seal hardening or softening.
- Protects against rust and corrosion.
- Provides excellent lubricity.

Brake Fluids DOT 4

Sega Xplus Brake Fluid DOT4, delivers enhanced performance vs. DOT standards, benefitting all vehicles calling for DOT 4. This synthetic fluid starts with a higher dry boiling point than the DOT minimum standard to protect against overheating, brake fade and performance decline due to water absorption.

- 50,000-mile extended life fluid, formulated to prevent corrosion of all metals within the braking system
- High-performance formula for extreme braking, providing a higher margin of safety because of its high-temperature synthetic extended life formula
- Prevents overheating, brake fading and exceeds DOT 4 standard requirements
- Protects against performance decline due to water absorption
- Prevents corrosion of all metals within the braking system

High Performance Monograde Engine Oil

Ultra HD Serie engine oil is produced from highly refined mineral base oils and performance additives for engines operating from moderate to severe conditions. It has a wide application range from automotive to older design equipment used in agriculture, mining, construction, also for stationary engines used in various applications. It provides good lubrication and protection to engine parts against wear and corrosion.

- May be used for both diesel and gasoline engines
- Provides good protection against wear and corrosion to engine components
- Suitable for use in all vehicles operating under moderate to severe conditions
- Good high temperature stability assures better lubrication at higher temperatures
- These oils may be used in moderate duty generator and compressors

Performance : API CD/SE

Engine Oil SAE 5W20

High Performance Fully Synthetic Engine Oil

A high-performance, low-friction, state-of-the-art, full synthetic engine oil designed for extended use. The combination of extraordinary technology with the latest generation of synthetic lubricants (medium SAPS technology) reveals high-durability engine oil against tearing by creating a lowviscosity, strong protective lubricant layer that prevents deposit build-up, reduces friction losses on the engine and provides excellent erosion protection.

- Low viscosity, rapid oil flow and low friction effectively lowers fuel consumption
- Outstanding engine cleanliness due to higher thermal stability and dispersion
- Prevents and reduces deposits or sludge build-up and extends engine life
- Provides excellent lubrication even at very low temperatures
- Quick cold weather starting and improved protection against wear
- Provides longer protection at higher temperatures compared to mineral based oils

Performance: API SM/CF

Engine Oil SAE 5W30

High Performance Full Synthetic Engine Oil

A high-performance, low-friction, state-of-the-art, full synthetic engine oil designed for extended use. The combination of extraordinary technology with the latest generation of synthetic lubricants (medium SAPS technology) reveals high-durability engine oil against tearing by creating a lowviscosity, strong protective lubricant layer that prevents deposit build-up, reduces friction losses on the engine and provides excellent erosion protection.

- Increases the life of catalytic convertor, exceeds industry standards
- Low viscosity, rapidly oil flow and low friction effectively lowers fuel consumption
- Outstanding engine cleanliness due to higher thermal stability and dispersion
- Provides excellent lubrication even at very low temperatures
- Prevents and reduces deposits or sludge build-up and extends engine life
- Quick cold weather starting provide higher protection against wear
- Provides maximum protection to engine even at higher temperatures

Engine Oil SAE 5W40

High Performance Semi-Synthetic MultiGrade Engine Oil

Especially designed for the lubrication of the most 4-stroke gasoline and diesel engines and LPG engines of passenger cars. By the use of specially formulated ingredients, it meets the present specifications and requirements of car-engine builders. It has exceptionally low ash content.

- Helps prevent deposits and sludge build-up to enable long engine life
- Excellent overall lubrication and wear protection performance for many driving styles
- Superb viscosity control
- Aids fuel economy
- Quick cold weather starting for ultra fast protection
- Helps to extend engine life and reduce stress on starting system components

Performance: API SL/CF

Engine Oil SAE 10W30

Fuel Saving Long Drain Synthetic Engine Oil

A high performance synthetic diesel engine oil. It provides far superior protection and lubrication compared with traditional mineral oils. Specially developed for use in modern heavy-duty diesel vehicles. With its fluidity and pumping properties, it provides excellent protection at starting.

- Excellent lubrication and viscosity sustains engine performance and reduces fuel consumption
- Antiwear and anti-rust additives effectively reduce engine wear and piston and valves clean
- Superior pumpability of oil even at extremely low temperatures controls the cold start wear
- Enhanced corrosion protection facilitate the use of both low and high sulphur containing fuels

Performance: API CI-4/SL

Engine Oil SAE 10W40

High Performance Semi-Synthetic Engine Oil

It is semi-synthetic high performance engine oil, it has been produced with the latest development additives and conventional base oils. Formulated with synthetic and highly refined base oils to maintain high performance under all kinds of driving conditions. Suitable for car equipped with multipoint fuel injection system, turbo-charger, also recommended for use in direct injection engines and vehicles running on LPG and diesel fuel.

- Stable viscosity, rapid oil flow and lower friction effectively help fuel saving
- Provides excellent lubrication and wear protection to modern high performance engines
- Excellent engine cleanliness due to higher thermal stability and dispersion
- Provides excellent lubrication even under extreme environmental conditions
- Prevents and reduces deposits or sludge build-up and extends engine life
- Provide longer protection even at higher temperatures compared to conventional oils

Performance : API SL/CF , CF (Diesel Engines)

Engine Oil SAE 15W40

High Performance Engine Oil

A high performance, low viscosity, high stability diesel engine oil used with a wide range of applications. It meets the requirements of modern engines over a wide range of applications throughout the year. It is a general engine oil suitable for the use of fleets with high engine power required to carry heavy loads. This oil is suitable for all types of turbocharged engines.

- Superior viscometric properties help easy start-up in all weathers
- Prevents and reduces deposit or sludge build-up and keeps the engine
- Engine cleanliness facilitate superior lubrication hence increase engine life
- Provides excellent lubrication even at very low environment temperatures
- Higher thermal stability and viscometry help to sustain power
- Longer drain periods, lesser oil loss improves the operational cost

Engine Oil SAE 20W50

High Performance Engine Oil

Formula 20W-50 is a high performance engine oil formulated with highly refined base oils and high quality additives for older cars, SUV and light transportation vehicles running on gasoline and diesel fuels. Helps to sustain power. Efficient lubrication of engine parts provides maximum protection against wear and corrosion while driving under high load and in extreme conditions.

- Helps to sustain engine power in older engines
- Prevents and reduces deposits or sludge build-up and keeps the engine clean
- Engine cleanliness facilitate superior lubrication, hence increase engine life
- Provides excellent lubrication even at very low environment temperatures
- Higher thermal stability and viscometry help to sustain power
- Longer drain periods, lesser oil loss improves the operational cost

Hydraulic Oil ISO 32/37/46/68

Sega Hydraulic Oil use for heavy machinery, pressing machinery, mobile construction equipment, plastic injection equipments and other industrial hydraulic systems. Formulation specially developed by SEGA Laboratories that long lasting under heavy working conditions; stop wear and corrosion.

SEGA XPLUS HYDRAULIC OIL SERIES is hydraulic system oil that is formulated with highly well refined paraffinic base oils and AW corrosion preventive additives. It is intended to be used with the purpose of load carrying in industrial load transmission systems and in hydraulic equipment of heavy earth movers.

It has significant advantages with its following features:

- It provides high protection against corrosion.
- It has an excellent rust and corrosion preventive feature.
- It has excellent resistance to heat and oxidation.
- It perfectly complies with sealing elements.
- It has a feature of being excellently filtered.
- It has resistance to extra load and strength transmission.

ATF Type T-IV

ATF TYPE T-IV is a fully synthetic automatic transmission fluid specially engineered to exceed the service fill requirement of all TOYOTA and LEXUS vehicles installed with AISIN WARNER gearboxes, where ATF T-IV fluid is recommended.

- Excellent lubricating characteristics for quiet operation and smooth shifting in approved transmissions
- Controlled friction properties for smooth and efficient transmission of power across all normal temperature ranges
- Helps to control transmission shudder and provide excellent vehicle driveability
- Helps to extend transmission life based on excellent wear control
- Long fluid life based on excellent oxidation resistance
- Excellent viscosity stability (high viscosity index) to help assure adequate lubrication without excessive thinning in severe high-temperature service or thickening at low starting temperatures
- Resistance to foaming
- Superb protection against rusting and corrosion
- Compatibility with synthetic rubber seal materials

0519-048952	1 LT	12 PCS

ATF DEXRON II

ATF DEXRON II is high quality automatic transmission oil that is prepared with very well-refined base oils. It is used in hydraulic steering systems and automatic transmission systems of vehicles requiring performance levels of GM Dexron II and Mercon. Furthermore, it is safely used in passenger vehicles, steering gears of heavy vehicles, automatic transaxles and transmissions.

- It has a longer life thanks to its high oxidation resistance.
- It provides soft and smooth transmission thanks to its high viscosity under low temperatures.
- It forms high quality film layer and provides perfect lubrication, and prevents abrasions in gears and bearings.
- It provides operations that are without loss and trouble in automatic transmissions by dispersing heat very well.
- Thanks to its high viscosity index, it minimizes frictions in a wide range of operating temperature.

CODE	CONTENT	QTY.
0519-048951	1 LT	12 PCS

ATF DEXRON III

ATF DEXRON III, is high performance automatic transmission oil that is obtained with the combination of very well-refined high quality base oils and modern additives. It is automatic transmission oil that is developed specially to fulfil the requirements of leading engine manufacturers such as GM Dexron II E, Dexron III and Ford Mercon. Furthermore, it can be used power-shift transmissions, steering and hydraulic units.

- It extends vehicle's life through high quality additives in its ingredients that prevent rust, corrosion and oxidation.
- It minimizes frictions in wide operating temperature ranges, disperses heat, and provides excellent operation in shifting.
- It fulfils requirements of engine manufacturers at a maximum level through its features of electronic control and high power transmission.
- Its high viscosity index perfectly provides needed performance under any kind of condition, and minimizes frictions.
- Since it is compatible with sealing elements, it prevents leakages.

CODE	CONTENT	QTY.
0519-048957	1 LT	12 PCS

ATF Type A

ATF Type A is a quality economical fluid. It is formulated from select base oils with a special additive to suppress foam formation. It contains red dye as a leak detector. Type A Automatic Transmission Fluid provides straight mineral oil lubrication and can be used when a lubricant of this type is recommended.

- Good oxidation and thermal stability reduces deposit formation
- Provides good antiwear protection to critical parts
- Extremely high Viscosity index ensures adequate lubrication in both high operating & low starting temperatures
- Provides good protection against rust and corrosion
- Enhanced Low temperature fluidity assist in good cold start performance
- Good foam control leads to smooth gear shifting
- Compatible with all common seal materials

SG-120 All in All Silicone Spray

SEGA Xplus SG-120 All in All Silicone Spray is a silicone-based lubricant spray used as a lubricant product for preventing wear and adhesion in vehicle interior parts (seat rails, folding ceilings, etc.) and door seals, protecting, polishing and maintaining rubber and plastic surfaces.

- It prevents abrasion and adhesion.
- It protects and insulates plastic, rubber and metal parts inside and outside the vehicle.
- It prevents squeaking.
- It can be used as a lubricant product in the textile industry.
- It is a silicone based lubricating spray.
- Provides a shiny surface to plastic part.

CODE	CONTENT	QTY.
0519-048803	450 ML	24 PCS

SG-40 Anti-Rust Penetrating Spray

This is a powerful rust prevention spray. It creates a long lasting protective barrier to protect any steel, metal or alloy surface against the effects of rust and corrosion. Use it on exposed metal surfaces, including engine components, suspension units, undercarriage, box sections, chrome, chains, electrical connections, motors, shafts, spindles, as well as tools and equipment for shipping and storage.

- Always active, does not dry out.
- Provides long term protection against corrosion.
- Provides superior lubrication and penetrates heavily seized parts.
- Stops existing corrosion.

Release Agent Spray

A specially formulated solvent which penetrates and softens most adhesives and butyl sealants allowing easy removal.

- Releases vehicle side mouldings and badges.
- Will release glued-on trim.
- Will not harm paint or rubber.
- Lubricates wind screen cut out wires.

CODE	CONTENT	QTY.
0519-048815	400 ML	24 PCS

Calcium Grease

A water-resistant, calcium soap, general-purpose grease produced with high quality base oils and superior additives. This grease is used in medium and high-speed rolling bearings that operate under non-severe conditions, where the operating temperature is not high, in low speed flat bearings, for chassis lubrication.

- It is water-resistant and protects the system against erosion and corrosion.
- The grease prevents foreign objects from entering the systems and provides economical usage.
- It provides quick and effective lubrication in various application areas where operating temperature is not high.
- It is recommended to be used in grease lubrication processes of ball and roller bearings and hydraulic turbines, temperatures of which does not exceed 70 °C.
- It provides high performance in lubrication of bearings operating in chassis and watery medium.
- It reduces abrasions, and thus reduces maintenance costs.

CODE	CONTENT	QTY.
0519-048964	15 KG	1 PCS

Lithium Grease

A lithium soap grease made from premium base oils and additives with wide spread use in various industries. It is used for automobiles that do not operate in very heavy loads and high temperature conditions, in wheel bearings of commercial and off-road vehicles, agriculture and work machines, central lubrication systems, ball and slide bearings. It is also used safely in bearings of electric motors and extends the life of the system by inhibiting rust and corrosion. The grease is resistant to water and oxidation and easy to pump. It inhibits erosion on pulsed and vibrating loads, and provides extra protection against washing with water.

- It is used in rollers, sliding bearings, central lubrication systems and general industrial applications. It is especially intended for roller lubrication, however, also used in chassis lubrication processes.
- It provides high resistance against rusting and corrosion.
- It provides operating performance between -20 °C and +130 °C.
- It reduces abrasions and thus maintenance costs with the help of high amount of EP high pressure additive it contains.
- It forms tampon oil film in vibrating medium, and thus extends bearing's life.

Rubber Grease

A water-resistant, calcium soap, general purpose grease produced with high quality base oils and superior additives. This grease is used in medium and high-speed rolling bearings that operate under non-severe conditions, where the operating temperature is not high, in low speed flat bearings, for chassis lubrication.

- It provides quick and effective lubrication in various application areas where operating temperature is not high.
- It is recommended to be used in grease lubrication processes of ball and roller bearings and hydraulic turbines, temperatures of which do not exceed 70 °C.
- It provides high performance in chassis lubrication processes.
- It provides high resistance against water and corrosion.
- It reduces abrasions and thus minimizes maintenance costs.
- It adheres surfaces, and makes lubrication well due to its fibrous structure, and thus reduces consumption.

SeBlue

SeBlue is an urea solution which has high purity level and it is consistent with the CEFIC instructions and its main duty is to lower the NOX emissions which has been released by heavy duty vehicles. It doesn't contain any toxic or poisonous substance in its formulation. SeBlue is a product which is applicable for the Euro 4 & Euro 5 engine technology. Provides fuel economy around %8 in the vehicles which have SCR technology. Seblue highly lowers down the greenhouse gas effect which is the main reason of Global Warming

DO YOU KNOW ADVANTAGE of SeBlue ?

PROTECTOR THE ENVIRONMENT • FUEL SAFER • FASTER CLEANER • SAFER TOMORROW

- Do not throw waste oils into soil or sewage systems.
- Do not mix with petroleum products or chemicals.
- Deliver free-of-charge to the nearest waste oil collection point in clean, strong, tightly sealed and capped container.

Torch Coolant

30% PG Mixture

It is a special liquid which used in cooling systems to prevent corrosion and frost. Through facilitating the transfer of heat content, it stops problems that you experience in your source applications. Higher warming increases durability, avoiding evaporation loss. The corrosive effect on copper and similar materials is very low. Thus, CNC cutting machines extend the service life by protecting the torch with the cooling system of the welding machines. The product should never be mixed with other corrosion inhibitors and chemicals.

Deionized Battery Water

Tap water contains impurities such as minerals which collect on the plates in the battery's cells reducing its capacity and usable life. Professional auto mechanics and car battery manufacturers recommend using pure water such as deionized water or distilled water for filling car batteries.

- Use in vehicle batteries and radiators
- Prevents furring and scale formation
- Suitable for household appliances including steam irons

REPAIR PRODUCTS

ADD MORE LIFE TO YOUR CAR

Gasket Maker

- SEGA Gasket Maker is now with low odor formula.
- Will not foul oxygen sensors.
- Fast curing , remains flexible.
- Makes tough leak-proof gaskets instantly.
- Makes reliable is formed-in-place gaskets that resist cracking, shrinking and migrating.

RED

HIGH TEMPERATURE

Makes gaskets for high temperature applications up to 650° F (343°C); safe for oxygen sensor equipped vehicles. Excellent heat control and torque retention for overhead cam and timing chain covers. Dries tough, flexible and improves high temperature performance. Resists most engine fluids.

BLACK-BLUE CLEAR-GRAY

HIGH TEMPERATURE

Replaces most cut gaskets. Forms to any shape instantly; cures fast. Resist cracking, shrinking and migration caused by thermal cycling. Also seals timing chain covers and differential covers. Dries tough yet flexible. Works up to 500°F (260°C). Resist oil, water, antifreeze and transmission fluid.

Spray paint

ALL PURPOSE FAST DRY INTERIOR - EXTERIOR

Quick dry Acrylic based spray paint. For all Interior and Exterior Applications. The product has good hiding power, coverage and gives protection against corrosion.

- Quick drying, smooth finish & high gloss.
- Premium quality, high durable.
- Interior and exterior application.
- Ideal for wood, metals, plastic, automotive and motorcycle, equipments etc.
- Available more than 30 colors including metallic, fluorescent colors.
- Non fading, none yellowing & weather resistant
- CFC Free

Paint Remover Spray

It is widely applied to remove some paint films such as self-dried alkyd resin paint, amino paint, nitryl paint, epoxy primers and some low temperature primers. It has advantage of good paint-removing ability and easy operation. It can be applied to machinery maintaining and decoration industry.

- Quickly Strips Paint, Varnish and Epoxy
- Penetrates and Softens in One Application
- Lifts and Removes Graffiti, Decals and Other Markings

Undercoating Spray

Rubberized for maximum durability; seals, protects and insulates. Excellent professional blend all-purpose coating. Ideal for home or shop use. Suggested Applications: Automotive frames, rocker panels and wheel wells. Other uses include sealing gutters, roofs, drain systems, and tree pruning. Sound deadening applications.

- Wax / bitumen based undercoating with an anti-corrosion effect
- Suitable for the bottom of cars, trucks, buses, trailers, caravans, cargo containers, etc.
- Sound-absorbing and resistant to rust and wear.
- Applies a strong, non-sticky coating and protects against stone chips, road salt, rust, water, ice, snow and corrosion.

MDF Fast Adhesive Set

Sega Fix Fast Adhesive Set is an adhesive set which consists of high viscosity cyanoacrylate adhesive and activator. It is particularly used for fixing and repairing wooden parts. Especially suitable for the applications where cure speed needs to be accelerated.

- High bonding strength
- Suitable for use on vertical surfaces as it will not drip or slump.
- It is particularly suited to bonding difficult substrates which have a porous or uneven nature.

Auto Kit Fast Adhesive Set

Sega Fix Auto Kit Fast Adhesive, is an adhesive set which consists of high viscosity cyanoacrylate and activator, developed for adhesion of materials in automotive sector.

- Ability to adhere in seconds
- High adhesion capacity
- Suitable to used on vertical surfaces; does not exude and splash
- Due to high viscosity, it increases the adhesion strength especially on porous surfaces that are difficult to adhere
- It used in rapid adhesion and repairing of the components such as metal, leather, rubber, plastic, mirror, wood, and etc. in automotive sector

Fast Adhesive Set for Stone & Granite

Sega Fix Fast Adhesive for Stone & Granite, is a special set developed for marble and stone areas consisting of activator and highly viscous cyanoacrylate adhesive.

- Specially developed for use of parts requiring high adhesion strength of heavy parts
- Easy and clean application
- Suitable for vertical surfaces; it does not flow and bounce
- Due to its viscosity, it increases the adhesion strength, especially on porous, hard-to-adhere surfaces

Marble & Granite Adhesive

Polyester resin based mastics for marble, granite, stones

It is a two component marble and natural stone adhesive based on polyester resin.

- Resistant to UV
- Resistant to alkalis and diluted acid solutions
- Temperature resistance of cured adhesive is between -10 °C and +100°C
- Bonded surfaces are ready to be used after 2 hours
- No color change, cracking or shrinkage during hardening period
- Bonding of natural stones like marble, travertine etc.
- Bonding of concrete, granite, wood surfaces

High Temperature RTV Sealant

It is a high-performance silicone sealant developed for sealing, bonding and repairing works where heat resistance is required. It is an ideal sealant for high temperature construction applications. It reacts with atmospheric moisture to produce a tough, elastic silicone.

- Sealing and bonding applications in automobiles
- On heating systems and ovens for sealing / tightness
- Sealing and bonding in stoves
- Gaskets in pumps and motors
- Sealing chimneys
- Other bonding and sealing applications where parts must perform at high temperatures
- Resists to mechanical enforcement after curing
- Acetoxycure, RTV silicone
- Will not crack, shrink or become brittle

High-Tack Sealant

Multi Purpose Montage Adhesive

It is polymer-based, one component, high quality and professional adhesive with high adhesive strength and initial tack. It is suitable for bonding heavy building materials without the use of clamps and/or fixing tape.

- Excellent elasticity, no bubble formation, waterproof, no shrinkage, over-paintable
- It is specially developed as a universal adhesive for bonding various building materials
- It is suitable for elastic bonding of panels, profiles and other pieces on the most common substrates such as: stone, concrete, mirrors, glass, plasterboard, PU, PVC, polyester, plastics, ceramic, copper, etc.
- Common application areas are: Wall cladding elements and ceiling panels
- Sound isolation panels (mineral wool, wood-wool cement & plastic foams)
- Thermal isolation panels (PUR, PIR, PS). Casings and frames in building construction
- Doorsteps, window sills, skirting boards and cover plates
- Complete construction elements (such as roofing and facade elements) in frames
